ION C2110 Product Notice

Date: February 17, 2012

Overview

This product notice involves a PCB labeling error on early production units of the ION C2110 media converter.

Affected Products:

This notice only applies to ION C2110-10xx cards with a seven digit serial number that does not begin with the number nine (9).

Issue:

The hardware/software jumper

- Board positions labeled J5 and J6 are reversed.

Resolution:

- This PCB labeling issue has been corrected on current production units.

Known Limitation:

- No functional limitations, the hardware/software jumper works correctly.
