

IONMM Release Notes

Date: November 1, 2018

Version: 1.4.1

Overview

This release note covers the requirements, important notes, new features and changes, addressed issues, and known limitations for the IONMM product family.

Access to the management data from the IONMM products is available using a web browser, FocalPoint, or Command Line Interface (CLI), or telnet. Management is also available via SNMP.

Requirements:

Firmware version 1.4.1 and these release notes apply to the following products:

- IONMM
- IONMM-232

New Features and Enhancements:

The following is a list of new features and enhancements in version 1.4.1

- Added support for remote management of the power supply modules in an un-managed chassis (requires the use of the C322x card running 1.3.17 firmware as the management data communication vehicle)
- Added support for new features found in the x61xx 4xT1 converter running 2.0.4 firmware
